

THE PENSION LIE NAILED.

The House committee on pensions has prepared its estimates of the amount of money required during the coming fiscal year for carrying into effect the pension law, including the dependent act of the last session of Congress.

The amount required during the present fiscal year, which will end with June 30, 1891, is slightly over \$133,000,000.

The amount estimated as the requirement of the next fiscal year, which will end with June 30, 1892, is placed at less than \$134,000,000—an increase of \$500,000.

These figures dispose of a lie, which was fathered by the New York Herald and has been industriously circulated by the Democratic press, that the pension requirements for the next fiscal year would be \$200,000,000 and would produce a deficiency of \$50,000,000 in the national revenue.

In the meantime the estimate of Pension Commissioner Raum that \$145,000,000 is the largest amount that will ever be required in any one year, under our liberal pension laws, remains uncontroverted.

The number of Harper's Weekly issued on December 3d will contain an article on "The New Indian Messiah," by Lieutenant Marion P. Maus, aide-de-camp of General Miles. It will be illustrated by a double page picture of "The Ghost Dance," drawn by Frederic Remington who also contributes pictorial and literary sketches in regard to the cooption of troops at the Indian Agencies, drawn from his personal observation and experience.

"Our next issue will be our last," writes a Georgia editor. We are satisfied the people of this town can get along without us, for we have been getting along without the people for six months past. There are some subscriptions owing, but we will not collect them, as the citizens will soon need the money to defray the funeral expenses of the town."

The Mineral Wealth of Nevada.

The Pacific Borax, Salt and Soda Company has declared a monthly dividend of \$1 per share, payable December 10th. More attention should be given to the great deposits of mineral that lie in the basins of the extinct lakes of Nevada than has heretofore been bestowed on them. All are running after mines of gold and silver, and the wealth in the basins of the old dead lakes is passed by. A deposit of salt, soda and borax that pays dividends is better than a gold mine that is constantly demanding the payment of assessments.—Journal.

Another Piute Doctor Pays the Penalty.

The Inyo Index says: Early Monday morning a Camp Independence Piute "medicine man," known as Charley, was removed from this sphere by having his head smashed with a rock and his throat cut from ear to ear. Two Indians did the deed, accordance with Piute law, which says that the doctor who loses three patients must die. These Indian murders are becoming more common, and only passing notice seems to be paid to them by the local authorities.

A Great Gold Region.

In Southern Nevada, on the borders of the Colorado river, is a vast field of gold-bearing quartz veins. Every quartz vein in that region contains more or less gold. Some of the veins are of such immense size as to be practically inexhaustible. As the waters of the Colorado river may be used for driving milling machinery it is believed that there is a chance for several such big mines as the Homestake of the Black Hills.

Eva Ray Hamilton the disreputable adventuress, is going on the stage. This seems to be about the limit of theatrical cheek as far as heard from.

THE MANHATTAN

Life Insurance Co.,

OF NEW YORK.

ASSETS - - \$12,000,000.

BETTER THAN A

GOVERNMENT BOND.

The MANHATTAN for a limited period will offer the residents of Nevada a Bond Combining Insurance and investment that is in reach of all and which every healthy able-bodied man in the State should possess—for the protection of himself and family.

In explanation read what follows: Suppose a special agent of the U. S. Treasury Department should call on you today and say:

The Government would like to sell you bonds for any amount between \$1,000 and \$30,000 and if it is not convenient for you to make the investment at once, we will allow you to pay for the bonds in

Ten Equal Annual Installments.

And, suppose, in addition to this, the Government, wishing to make this the most desirable investment in the world, should stipulate in the bond, not only to pay them at the end of the term, but in case of your previous death, to pay them to your family and AT THE SAME TIME RELEASE YOUR FAMILY FROM PAYING ANY FURTHER MONEY.

Would you not at once close with such an offer? And yet this is practically what the Manhattan Life Insurance Company, of New York has done and is doing.

For a full explanation of this plan, address, giving your full name address, occupation and age,
